

2021-2022
PISGAH ELEMENTARY SCHOOL
FAMILY ENGAGEMENT POLICY

Pisgah Elementary School believes that the improved academic achievement of each student is a responsibility shared by the entire school community. This includes the Buncombe County Schools' leadership team, members of the community, Pisgah Elementary administration, educators, staff, students and their families.

Parents, families and guardians are the central figures in a child's development and are his or her first teachers. We believe the involvement of the family greatly enhances the effectiveness of our program and significantly enhances the success of each individual child involved. Pisgah Elementary will work to provide a variety of opportunities and resources to encourage meaningful family engagement.

The faculty and staff of Pisgah Elementary encourages all efforts which promote an enduring partnership between the child, the parents, the families and the school.

A Family-School Compact was developed and agreed upon by a committee of parents, educators and administrators. This compact is a commitment indicating how all members of the Pisgah Family agree to share in the responsibility of student learning.
